

Mikkel Blach

A little bit about me

I've always had a passion towards design and digital media. My dream is to become a part of the design and digital media industry.

I'm eager to become better and learn new things everyday. In speaking of work methods, I'm a problem solver.

I'm able to think outside the box and spend the required hours to find the right solution, even though it's advanced.

I think myself as a teamplayer and I'm always open for ideas or criticism.
